In addition, this easy-to-read textbook also devotes three chapters to the formal aspects of logic including forms of argument, as well as propositional, categorical, and quantificational logic.

Read Download Understanding Arguments PDF - PDF Download

A different but complementary way of viewing an argument is to treat it as a particular use of language: Presenting arguments is one of the important things we do with words. This approach stresses that arguing is a linguistic activity. Instead of studying arguments as abstract patterns, it examines them as they occur in concrete settings.
